

It's us who...

brought you the first

GPS+GLONASS

and now Galileo & Beidou

**It's
us...**

Receiver on a Pole

and fully integrated
receiver/controller

12, 76, 216

channel receivers

J-shield

Latest GNSS technology
for the past

30 Years

protects **all GNSS bands**
against **all current**
and future
near-band signals

Visual Stakeout

Target point itself

View your target point on the
TRIUMPH-VS screen
and **walk towards it**
to stake it.

Each of our

6 Parallel RTK Engines

employs different algorithms
to calculate solutions

and

the weighted average of them
provides the **most robust,**
accurate
and **fastest** results.

Survey with Lift&Tilt

You don't need to look.
You don't need to touch.

TRIUMPH-VS brings this new
revolution to surveyors

Lift&Tilt
and
6 Parallel
RTK Engines
and
Visual Stakeout

**Interference protection,
monitoring & reporting**

It's us who will bring you
the next GNSS

Innovation

We provide the most accurate,
the most advanced
and **easy to use**
GNSS instruments.

We provide protection for
GNSS bands and **spectrum**
monitoring and **reporting**
because we believe these are the
right things to do.
