

# GPS Cinderella

Every other Tuesday, your GPS L1\* turns into a GPS + GLONASS dual-frequency for the full day.

**ACTIVATION is our innovation.** Each JPS product may be activated from single to dual frequency and from GPS-only to GPS + GLONASS. We also have a host of innovations that nobody else offers...Dual-Depth, Dual-Frequency Choke Ring, In-band Interference Rejection, GPS with Co-Op Tracking, GPS-Coupled Spread Spectrum Radio Modems, Integrated RTK with Choke Ring for Base & Rover, Infrared Remote Control and Voice Interface, plus Plan-and-Execute Post Processing Software. They offer significant performance enhancements... no fairy godmother necessary! For more information visit our web site [www.javad.com](http://www.javad.com)

\*The same magic applies to GPS L1+L2 and GPS + GLONASS L1.
