

TRIUMPH-1

216 channels

GPS + GLONASS + Galileo

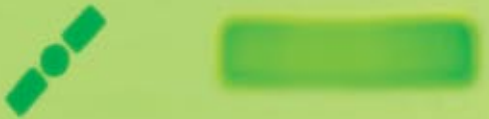

Connectivity

- *Power*
- *2 serial*
- *USB*
- *Ethernet*
- *WiFi*
- *Bluetooth*

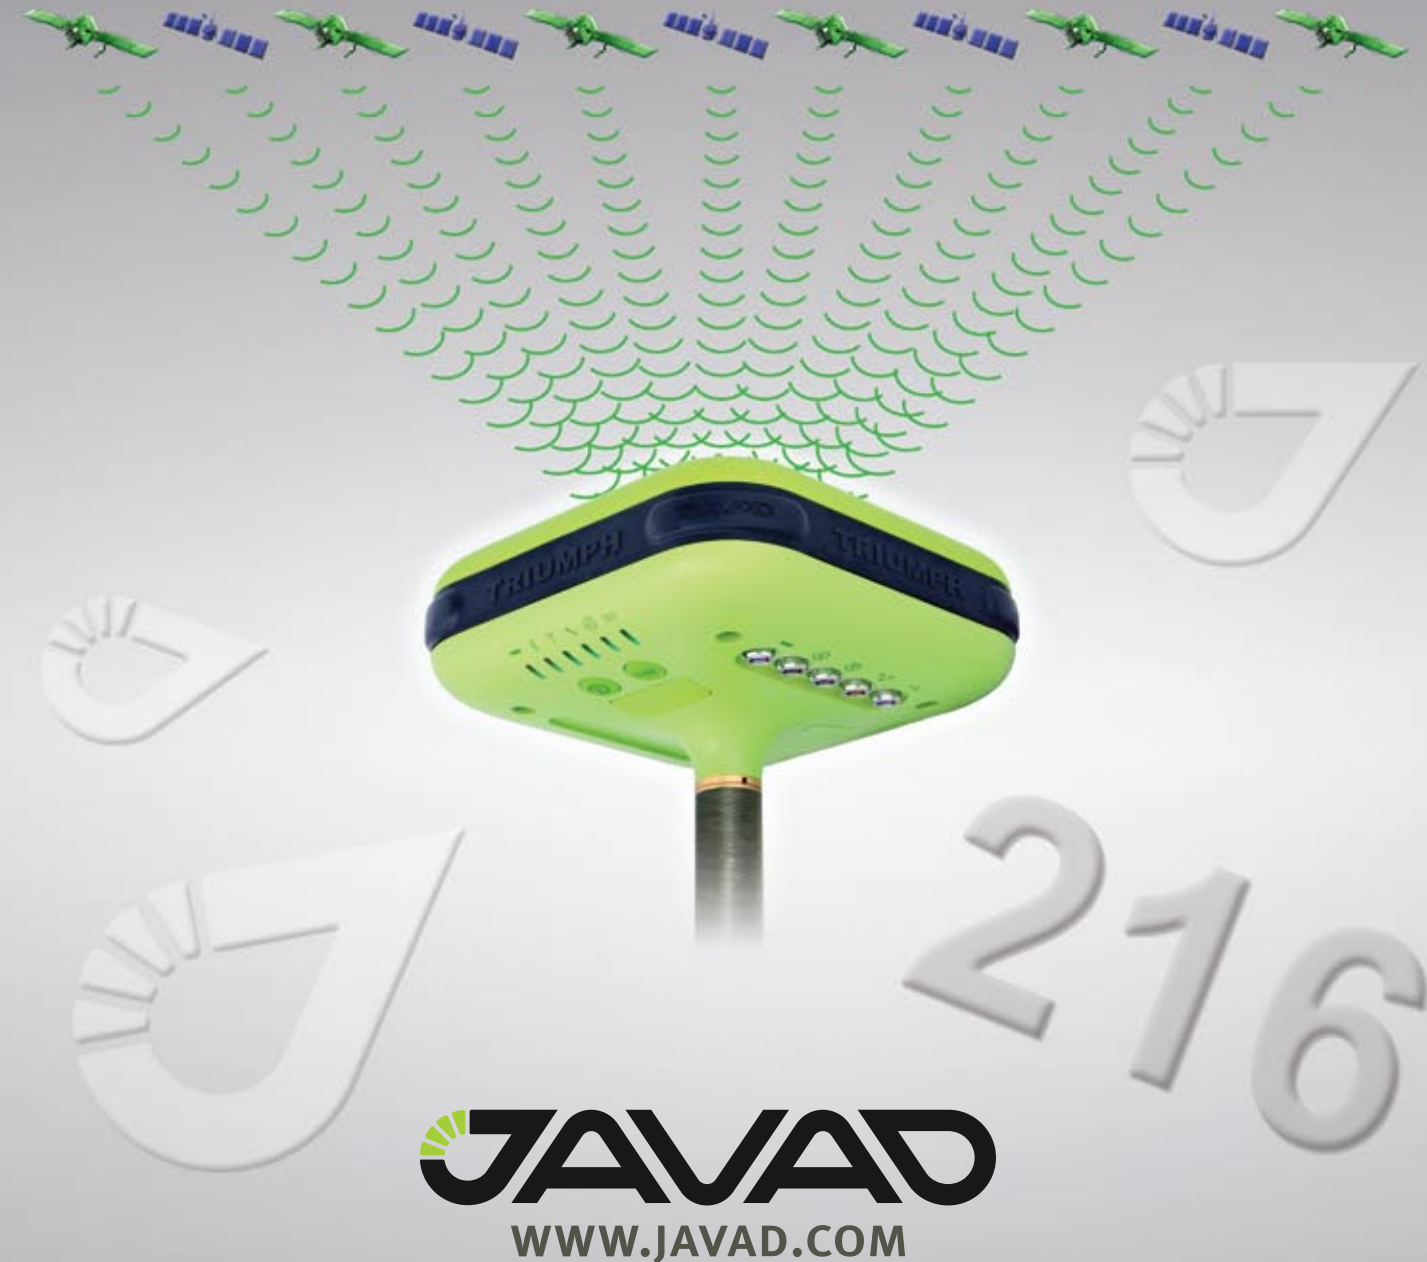

Functionality

- *Record*
- *Solution*
- *Satellites*
- *Modem*
- *Bluetooth*
- *Battery*

Our GLONASS is as good as GPS

We dynamically and continuously calibrate GLONASS inter-channel biases with an accuracy of **0.2 millimeter**

GPS + GLONASS + Galileo

TRIUMPH

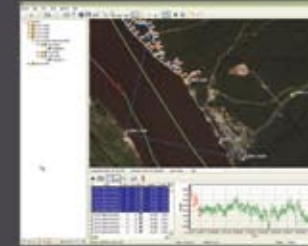

TRIUMPH

216 sophisticated channels

- *Equivalent of 110,000 correlators for fast acquisition*
- *Five adaptive In-Band Interference Rejection filters*
- *Hardware Viterbi decoder for WAAS/EGNOS/SBAS*
- *Powerful processor with FPU*

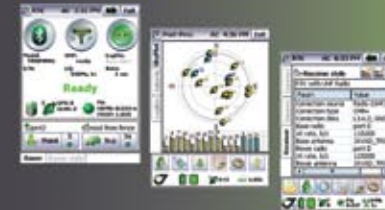

• Justin

A comprehensive Survey and GIS software

• Tracy

A versatile and powerful field software

• Giodis

Full-featured office post-processing software
